- Priority support

Enterprise

Price: Custom pricing

Includes:

- Unlimited users
 - Unlimited data sources
 - Advanced security
 - Custom reporting
 - Dedicated support
 - Custom deployment options
-

6. Product Bundles

Customers can combine multiple NexaTech products.

AI Automation Bundle

Combines NexaAI Professional and NexaFlow Business.

Price: \$499 per month.

The bundle is designed for companies that want to combine AI-powered decision-making with automated business workflows.

Business Intelligence Bundle

Combines NexaInsights Business and NexaCloud Business.

Price: \$499 per month.

This bundle is designed for companies requiring both managed infrastructure and advanced analytics.

Enterprise Platform

Companies requiring multiple products can request a customized Enterprise Platform agreement.

Enterprise pricing depends on:

- Number of users
- Infrastructure requirements
- Data volume
- API usage
- Security requirements
- Deployment model
- Support requirements

7. Billing

Monthly subscriptions are billed at the beginning of each billing period.

Annual contracts are available for Business and Enterprise customers.

Annual subscriptions may receive a discount depending on the contract and products selected.

8. Cancellation

Customers on monthly plans may cancel their subscription at any time.

Cancellation takes effect at the end of the current billing period.

Enterprise cancellation terms are defined in the customer's contract.

9. Pricing Changes

NexaTech may change publicly listed prices.

Existing customers will receive advance notification of significant pricing changes according to the terms of their subscription agreement.

Custom Enterprise pricing is governed by the individual customer contract.
